Diploma in Digital Media and IT, Computer Software Development, Graduation: 12/2021

Northern Alberta Institute of Technology (NAIT), Edmonton, Alberta, Canada.

- GPA: 3.30 / 4.00
- Dean's Honor Roll, Fall 2020 & Fall 2021
- Exemplary Academic Achievement Award in the Digital Media and IT Program, Winter 2020

Projects

[Movie & TV Show Lookup Web Application](#) | Personal

- Coded with HTML, SCSS, and JavaScript.
- Utilized the TheMovieDB API to fetch and display movie and tv show information on page load and via search.
- Implemented a Dark and Light Mode that saves the users theme preference to local storage.

[Recipe Lookup Web Application](#) | Personal

- Built with HTML, SCSS, and JavaScript.
- Retrieved and displayed recipe information on button click and via search using TheMealDB API.
- Implemented a modal that displayed detailed recipe information on button click.

[Weather Lookup Web Application](#) | Personal

- Made with HTML, SCSS, and vanilla JavaScript.
- Fetched and displayed weather information on search using the OpenWeather API.
- Dynamically swapped the banner image using Unsplash to an image that's relevant to the location that's searched.

[E.S.W. Reporting Portal](#) | Capstone Project

- Worked with a team of 18 developers to build a single-page internal reporting portal with React.
- Used an internal API to fetch and display data order and customer information.
- Actively participated in daily standups and weekly SCRUM meetings.
