PROJECT EXPERIENCE

[ESW Reporting Portal](https://github.com/trevinshu/ESW-Reporting-Portal-Scrubbed) — github.com/trevinshu/ESW-Reporting-Portal-Scrubbed — Capstone Project

- Helped redesign & rebuild ESW's internal reporting portal from a multi-page web application to a single-page web application with React which performed 50% faster than their previous site.
- Participated in & led sprint planning meetings, daily standups, sprint reviews, client meetings, pair programming sessions & code reviews.
- Assisted in designing and coding the navigation menu, footer and login screen components.

[Movie & TV Show Lookup Application](https://github.com/trevinshu/movietvapp) — github.com/trevinshu/movietvapp — Personal Project

- Coded a responsive movie & tv show lookup web application with HTML, SCSS and JavaScript
- Utilized the TheMovieDB API to fetch and display movie and tv show information on page load and via search.
- Implemented a Dark and Light Mode that saves the user's theme preference to local storage.

[Recipe Lookup Application](https://github.com/trevinshu/recipeapp) — github.com/trevinshu/recipeapp — Personal Project

- Built a responsive Recipe lookup web application with HTML, SCSS, and JavaScript
- Retrieved and displayed recipe information on category click and via search using TheMealDB API.
- Implemented a modal that displays detailed recipe information in a user-friendly manner.

WORK EXPERIENCE

[Intern](#), Web3, Edmonton, Alberta, March 2018 – May 2018

- Researched, photoshopped and printed unique web designs.
- Assisted in day-to-day office tasks such as relaying messages and running errands.
